

Run IIb Installation (Silicon, L1, L2 Triggers)

Fiscal Year

ID	Task Name	2005												2006						
		O	N	D	J	F	M	A	M	J	J	A	S	O	N	D				
77	L1 Cal/Track Match Production and Testing Completed	◆	10/29																	
123	L2 STT Hardware Production Complete			◆	12/8															
86	L1 Central Track Trigger DFEA Production And Testing Complete					◆	2/23													
110	Level 2 Beta Production Complete					◆	2/28													
16	Silicon Infrastructure Prepared									◆	5/3									
108	Level 1 Tracking Installation Complete									◆	5/17									
136	Trigger Upgrade Ready for Resumption of Tevatron									◆	5/17									
4	Shutdown for Installation Begins											◆	6/30							
67	L1 Cal Trigger Production And Testing Complete											◆	7/5							
130	L2 STT Hardware Installed											◆	7/7							
25	Detector Open and Ready for Access											◆	7/11							
31	Run IIa Beampipe & Silicon H-Disks Removed											◆	7/18							
3	Silicon Ready To Move To DAB											◆	7/21							
121	Level 2 Upgrade Beta Installed & Commissioned											◆	7/21							
37	L0 Silicon Detector Installed In RunIIa Silicon											◆	7/29							
43	L0 Silicon Cable-up Complete												◆	8/11						
47	Run IIb Beam Tube Installed												◆	8/18						
50	Silicon Ready for Resumption of Tevatron Operation												◆	8/18						
137	Run IIb Detector Ready for Resumption of Tevatron												◆	8/18						
54	Silicon System Ready for Physics Commissioning													◆	9/8					
75	Level 1 Calorimeter Trigger Installed													◆	9/12					
84	Level 1 Calorimeter Track Matching Installation Complete																	◆	10/17
