L1CAL EXAMINE PROCEDURE

Examine:

```
cd /mnt/scratch/stbeale/p2011l1calexamine  
setup DORunII p20.11.00  
setup d0tools  
d0setwa  
./cal_examine.sh
```

```
init  
start
```

(Other commends: pause, stop, report L1Cal...)

Gmbrowser:

at a different shell:

```
cd /mnt/scratch/stbeale/p2011l1calexamine  
setup DORunII p20.11.00  
setup d0tools  
d0setwa  
setup gmbrowser  
gmbrowser CalEx.cfg examine (examine is just a session name)
```

or, just look at the histograms in root:

```
root -l histo.root  
new TBrowser()
```
